SUJAL SINGH

Vrindavan, Uttar Pradesh | +91-6397754642 | sujal.singh_cs.h23@gla.ac.in | LinkedIn | GitHub

Summary

Final-year CSE student specializing in AI & Analytics with hands-on experience building data-driven platforms, ML workflows, real-time systems, and full-stack applications.

Education

GLA University, Mathura 2023 – 2027
B.Tech CSE (Hons.) – AI & Analytics **CPI: 7.71/10**

Technical Skills

Programming: Java, Python, JavaScript, SQL
Web Development: React.js, Next.js, Node.js, Express.js, REST APIs, HTML, CSS, Streamlit
AI/ML & Data: Machine Learning, Deep Learning, NLP, Generative AI, Reinforcement Learning, EDA, Pandas, NumPy
Databases & Tools: PostgreSQL, Power BI, Data Modeling, Docker, Git, GitHub, VS Code, Google Colab

Projects

ContextIQ – Full-Stack RAG Chat System GitHub | Live Demo
React, TypeScript, Vite, FastAPI, FAISS, Supabase, Docker, Groq

- Engineered a **full-stack RAG system** for PDF ingestion and context-aware conversational querying.
- Implemented **semantic retrieval** with document chunking, embeddings, FAISS vector search, and Groq LLMs for grounded responses.
- Implemented **authentication and containerized deployment** across Vercel and Render.

Syntra – Distributed Real-Time Observability Platform GitHub
React.js, Node.js, Socket.IO, PostgreSQL, Docker

- Engineered an **agent-based observability platform** for multi-host and Docker environments, monitoring CPU, memory, disk, uptime, and container metrics in real time.
- Built a **real-time telemetry pipeline** for live monitoring, persistent metric storage, and historical performance analysis.

InsightFlow – AI-Powered Data Analysis Platform GitHub | Live Demo
Python, Machine Learning, Pandas, Scikit-learn, Streamlit

- Built a no-code platform automating **data profiling, EDA, statistical analysis, and visualization**.
- Implemented an end-to-end ML workflow covering **preprocessing, feature engineering, model tuning, and prediction**.

Experience

Project-Based Learning Trainee – JoVAC, GLA University *June 2025 – July 2025*

- Implemented autonomous robot navigation using **PPO** in a custom simulation environment for obstacle avoidance and goal navigation.
- Built a real-time **React.js + FastAPI** dashboard with WebSockets to visualize robot motion, LiDAR data, rewards, and training metrics.

Data Analyst Intern – SkillCred *June 2024 – July 2024*

- Cleaned, validated, and analyzed datasets using **Python, Pandas, NumPy, and Excel** for reporting and data quality.
- Built an interactive **Power BI dashboard** using Power Query for data transformation, modeling, and sales insights.

Achievements

- Solved **250+ Data Structures and Algorithms problems** across LeetCode and GeeksforGeeks.
- Ranked among the **Top 5% learners** in NPTEL Organizational Behaviour; earned **Elite + Gold** with a **96% score**.
- Completed **AI Mastery** and **AI Algorithm Development with Python** workshops by **NEC Corporation India and Intel**.

Certifications

- Meta Professional Front-End Developer
- IBM Databases and SQL for Data Science with Python
- Intel–NEC Certification in Machine Learning, Deep Learning, and Data Analysis with Python

Leadership & Activities

- Competed in **RoboWeek 3.0 Hackathon (NIT Hamirpur)**, leading a multidisciplinary team to conceptualize, prototype, and present an innovative robotic solution.
- Served as **Team Lead at Rapid Prototyping Camp (RPC), Bangalore**, guiding team members in developing and presenting prototype solutions to industry experts.
